

## Have Your Say: Disability Related Expenditure (DRE) Survey

Proposed changes to Leicester City Council's financial assessment for adults who live at home and are eligible for help from adult social care

Please complete this survey and send it back to us by 28 September 2018, or alternatively complete the survey online at:  
[consultations.leicester.gov.uk](http://consultations.leicester.gov.uk)

### Who is this survey for?

This questionnaire has been sent to you because you are eligible for help from adult social care or you are a relative or representative of someone who gets help from adult social care. This survey is also on the Council's website and can be filled in by anyone, not just those who receive help from adult social care.

### What are we proposing?

The Council is considering changing the financial assessment for people who receive non-residential care. Everyone who is eligible for adult social care has a financial assessment to work out if they have to pay towards the cost of their care, and if so, how much. The assessment criteria are outlined in the Council's charging policy, which can be found at:

[www.leicester.gov.uk/financial-assessment](http://www.leicester.gov.uk/financial-assessment)

The financial assessment takes into account extra expenses people may have because of their disability. This is called **Disability Related Expenditure (DRE)**. Some examples of disability related expenditure include additional gas or electricity usage, additional water usage, travel costs, community alarms, gardening and dietary needs.

We are proposing to change the amount allowed for disability related expenditure per week to bring it in line with the average cost of such expenditure in Leicester and to make it fairer.

## Have your say

We want to hear your views on the proposed changes. No changes can be made until the City Mayor and his Executive team have considered the findings of the survey. The consultation will run from **3 July to 28 September 2018**.

If you want to talk to someone about the survey or you need support to complete it, please call our helpline on **0116 454 4400** or e-mail us at:  
**ASCconsultations@leicester.gov.uk**

We would like to ask you some questions to understand how you feel about the proposals. We also want to know how you think they might affect you.

## Proposal

### How does disability related expenditure work now?

The Council carries out a financial assessment to check the money people have and whether they can afford to pay towards their services. This helps us to work out if a person has to pay for their care and support and if so, how much.

Some people have extra expenses because of a disability and we take this into consideration during the financial assessment. Currently we allow a minimum amount of £20 per week towards disability related expenditure for a single person (or £15 per week, for one of a couple). We do allow people more than the set amount, if they can show that their expenses are higher.

### What does the Council want to change and why?

We want to change the amount for disability related expenditure so that a minimum of £10 per week is allowed for everyone.

We have worked out that on average most people in Leicester have disability related expenses of £7.50 per week, and so reducing the amount to a minimum of £10 per week is closer to what people actually spend. We think this proposal is fairer.

It means that everyone is treated the same, whether they are single or part of a couple. The Council would continue to allow people more than the set amount if they could show that their expenses are higher, due to their disability. This would help the Council spend its money more wisely so that as many people as possible can get help.

## Question 2

**The Council wants to reduce the amount allowed for disability related expenditure to a minimum of £10 per week (whether single or one of a couple).**

What do you think about this?

- a) I **agree** with the proposal
- b) I **disagree** with this proposal
- c) I do not have a view

Please tell us why you agree or disagree with this proposal and any other comments you may have

## How you may be affected by the change

If this change is agreed, almost half of the people (49%) that are eligible for adult social care are unlikely to see any change at all. They will either pay nothing as they do now, or will continue to pay the same amount each week. This is because their income is either too low, or they are already paying the full cost of their services.

Whilst many people will not be asked to pay more, some people will be. Some people could start paying for the first time. The highest increase anyone would have to pay is £10 per week.

We want to understand what concerns people may have, if they were asked to pay more towards their care.

### Question 3

**If you were asked to pay £10 per week more towards your care due to the change in the amount allowed for disability related expenditure, how would this affect you?**

If you are not a service user, please answer how you think others may be affected by the change.

**Please tick all that apply.**

- |  |                          |
|--|--------------------------|
| a) I would be able to manage this  | <input type="checkbox"/> |
| b) The change would affect me a little. This could affect how much I have for extras or treats | <input type="checkbox"/> |
| c) The change would affect me a lot. This could affect how much I have for essentials          | <input type="checkbox"/> |
| d) I would think about whether I want to carry on getting help from adult social care          | <input type="checkbox"/> |
